A number of friends were down from Truckee. Patrick Henry was born in Kingston, Canada, Jan. 31, 1851. His mother's maiden name was McKinley. Her grandfather and President McKinley's grandfather were first cousins. He came west when sixteen years of age and was a telegraph operator at different places, coming to Truckee Jan. 1870. He was chief operator here for a number of years. In 1873, he was married to Miss Jennie Ellen, daughter of E. Ellen, a pioneer lumberman of Truckee Basin. Mr. Henry was extensively engaged in the ice business, his ponds and houses being situated at the lower end of Truckee. He was president of the Reno Mill and Lumber Company, and during the summer, just past, he put a new band sawmill in operation near Beckwith, and built a box factory in Loyalton. He was vigorous and active and rapidly settling his business affairs on a good basis. He leaves to mourn his death, one son, James E. Henry of San Francisco, three brothers, Wm. James and Henry of Reno, and Peter Henry, an engineer in Toronto, well-known to Trainmaster Irwin, and two sisters, Mrs. Chas. A WEDDING AT WASHOE

Two Estimable Young People Speak the Holy Vows.

A pretty wedding took place Sunday at the residence of Mr. and Mrs. Sauer at Washoe, when their daughter, Louise, was united in marriage to Louis Zurluh, Rev. Samuel Unsworth officiating. The bride looked charming in white organdie, carrying a bouquet of bride's roses and maiden fern, and was attended by her sister, Miss Ida Sauer, who wore white organdie with pink trimmings, and carried a bouquet of La France roses. The groom was supported by Preston Smith, as best man. After congratulations were received by the bride and groom, the guests repaired to the prettily decorated dining-room where a sumptuous wedding supper was spread. The bride is very popular throughout the valley, where she has always resided, and is a young lady of sterling worth and many rare traits of character. The groom is an esteemed young man, well and favorably known. The young couple were the recipients of many beautiful and useful presents. Their host of friends wish them happiness and success on their journey through life. Amidst a shower of rice and old shoes Mr. and Mrs. Zurluh departed on the morning train for San Francisco, where they will spend their honeymoon, and upon their return will reside in Washoe Valley. Following is a list of those present: Mr. and Mrs. A. Sauer, Rev. Samuel Unsworth, Mrs. Mary Kornmeyer, Mr. and Mrs. Henry Heldenreich and family, Mr. and Mrs. Geo. Sauer, Miss Ida Sauer, Mr. Preston Smith, Miss Helen Fanta, Mr. Will Sauer, Miss Viola Smith, Mr. Frank Sauer, Miss Ella Smith, Mr. Lew Winters, Miss Theresa Peter, Mr. E. W. One Reason for the "Poor" Service. A copy of one of The Journal's Nevada exchanges that is waging a bitter warfare upon railway mail service in this State, arrived yesterday. The exchange contained an article scoring the postal clerks because its copies did not always reach their destination. The exchange was addressed, "Sentinel Eureka Nev x 1664 State Journal Reno Nevada x."

The Sentinel will fail to receive its copy of the aforesaid exchange and proceed to burn the boots off the mail clerks.

C. P. Chamberlain Weds Miss Trembly. C. P. Chamberlain and Miss Carrie Trembly were married last evening at the home of the bride in this city. Rev. Samuel Unsworth officiated. Mr. and Mrs. Chamberlain will take a honeymoon trip after which they will reside on Mill street.

After the wedding a number of the friends of the bride and groom gathered in front of the house and gave them an old-fashioned callithumpian serenade. Wall Paper all the time at Porteous'.

IN THE HALLS OF CONGRESS

Yesterday's Happenings Under the Great White Dome at Washington.

Governor Crane has declined the offer of the treasury portfolio. The battleship Indiana has been ordered by the Navy Department to sail for Venezuela. O. I. Spaulding's retirement from the assistant secretaryship of the treasury has been decided upon. It is President Roosevelt's present intention to remain in Washington during the holiday week but he desires to obtain a respite from official duties and will see only such visitors as have urgent and important public business to present. In line with the determination already reached to stop the further discussion of the Schley case, so far as the executive branch of the government is concerned, the Navy Department has decided that it will ignore the reported recent utterances of Rear Admiral Brown and Bolknag somewhat, on the lines of the General Miles interview.

Painters' Supplies at Porteous'. **POLICE COURT DAILY GRIND** All Sorts of Persons Are Charged With Offenses. Belle Scott was escorted to the building occupied by Judge Linn by two fat cops on a charge of being too acquisitive—in other words, of being too fond of money that did not belong to her to the amount of seven bucks. She was admitted to bail in the sum of \$25. A Robinson, taken in on a charge of vagrancy, was given an opportunity to jump his job. He hopped. H. Feezey and W. Greig were confronted with charges of vagrancy. They also were given opportunity to hit the pike, and they did it. James Cummings, a colored gentleman of decidedly mean proclivities, pleaded guilty to a charge of vagrancy, and was given ninety days to work off some of his ineanness. T. Masterson and T. Cullen slept too much and too long in a place that wasn't intended exactly for a roosting place. They were given a chance to hunt another bed. Two ignoble red men of Plute inclination tried to gouge and claw the life out of each other in the alley back of the Arcade Hotel. Officers Leeper and Brundage stopped the scrap before either combatant was very badly disfigured, and both were remanded to the county bastle for a period of forty-five days each. John Murphy belted George Magsam in the mouth hard enough to make ten men take a tumble. Magsam tumbled all by his lonely. Murphy is resting easily in the brick building on the south side of the river, and is liable to stay there until he feels strong enough to land on some other inoffensive citizen. F. P. Burke and T. Murphy got drunk in Chinatown, and proceeded to show the saffron hued denizens of that quarter how to run things. The yellow people didn't seem to appreciate the civilization methods of Messrs. Burke and Murphy, and telephoned for the officers. The two will be given a chance to put a little of their theories on muscle to practical use on the county roads and sewers.

A NEVADA IRRIGATION BILL.

THE special bill introduced by Mr. Newlands on the 2d inst., provides for an appropriation of \$600,000, for the construction of reservoirs, canals and other works necessary for the irrigation of arid lands in the State of Nevada. An equal division of \$150,000 is made each for the Truckee, Humboldt, Carson and Walker rivers. The bill provides that when the irrigation project is completed, the total cost shall be ascertained and the amount divided pro rata of the lands to be irrigated and made a charge against the lands as a cost of the right to use the water; that such public lands shall be subject to homestead entry upon a condition additional to the Homestead Act, that the entryman shall make payment in not to exceed twenty annual instalments, each entryman to be limited to the entry of eighty acres or less at the discretion of the Secretary of the Interior. The actual settlement and cultivation of the land are prerequisites to obtaining title.

In case there is more water than is needed for public lands, or if private lands are better suited to the utilization of the stored waters, or if there is sufficient for both, the right to use the water may be sold to settlers upon the same terms, limited to an amount, however, not to exceed eighty acres.

The bill is on the same lines as the general irrigation bill, also introduced by Mr. Newlands, and is designed for the benefit and encouragement of small land holders and home builders. It was probably introduced as a saving clause for Nevada in the event of the failure of the national bill.

THE RIGHT KIND OF RECIPROCITY.

IF there is to be any reciprocity says a Republican paper, it must be along the lines of the Dingley tariff, or else we must admit that the time for free trade has come. The trust tariff element in the Republican party uses the words "free trade" as a scare-crow upon all occasions when a proposal is made to equalize the tariff schedule and to reduce the exorbitant portions within reasonable limits.

Our high protective tariff is a policy of exclusion, and not protection. President McKinley realized that fact and so expressed himself in his last speech when he said that the time for exclusion had passed. The whole tenor of his speech was in favor of throwing off the restrictions of trade which we have outgrown. That of course does not mean free trade, but it does mean that we have passed the stage where excessive tariff taxation is necessary to protect any industry which is more than able to take care of itself. He made but one reference to reciprocity in which he suggested that we use the tariff as a means of extending our trade through reciprocal arrangements. Aside from that, his speech might properly and naturally have emanated from any Democratic statesman in the country. Not that Democrats are opposed to reciprocity. They believe in it and have argued it for years; not the kind the Republicans propose, but a broader kind and they will only oppose the Republican reciprocity, because it is not broad enough. Republicans would put up the bars of a tariff and let them down in some instances where the benefits to results are immediate and urging. Democrats would lower the tariff bars to the limit of revenue necessity, and invite everyone to come in and trade. They have preached for years the doctrine that McKinley advocated, that we cannot sell unless we buy. They would invite every nation to send their goods here that we may send our products to them. They would give all an equal chance and especially home consumers, that they may be able to purchase our home products, upon at least as favorable terms as are accorded to purchasers in foreign countries. That's the only difference.

LITERAL DIRT EATERS.

THERE is a community of dirt eaters in St. Louis, a society of seventy-five men and women who believe that by eating dirt, people may do away with doctors. The members do not eat dirt figuratively but literally. They believe that the human stomach, like the gizzard of a Shanghai rooster, requires grit. They point out the fact that animals eat dirt, and do not have to be operated on for appendicitis, and they have therefore come to the conclusion that a spoonful of dirt in time may save a quart of medicine. It must not be understood that the dirt eaters expect to become gritty by eating such dirt as we sometimes have in the streets of Reno when Tom Hymers fails to meet with his usual punctuality. They use a certain kind of material that is found in the river bottoms. It is especially prepared by Wm. Windsor, the head of the society, a lawyer and amateur scientist, who sterilizes it and sells it to his followers at the low price of twenty-five cents a sack. He declares that anyone can soon become so addicted to dirt eating that he will wait with ill concealed anxiety for his daily allowance. The society is six months old and is rapidly growing in strength and numbers. It is an old saying that every man eats a peck of dirt during a lifetime, but it is generally through the medium of uncleanly cooks and dishonest grocers who dilute their whisky with dirty water and sand their sugar, which in popular opinion furnishes all of the grit necessary for sanitary purposes.

MARCONI claims that in his recent experiments he has succeeded in sending a message across the ocean by wireless telegraphy. If he has there is not much doubt that the system will, before long be perfected to such an extent that it can be successfully used in place of a submarine cable, and at much less cost. The erection and maintenance of a station on either side of the Atlantic would be ridiculously small in comparison with the cable system. In the event of such substitution, the millions of Comstock money invested under the ocean waters, by John W. Mackay of ours, would be as hopelessly lost to the investor as to the State whose mountains furnished the means for the conveyance of thought between the eastern and western hemispheres.

AS an indication of the sentiment in regard to the isthmus canal project, it is noticeable that not a congressman dared to object to the exclusive consideration of the bill, to begin on the 7th of January next. Representative Cannon mildly suggested a delay but was shamed into silence. As the treaty has been ratified and the report of the committee submitted, there seems now but little chance for successful obstruction.

THE people at Washington seem bent on giving the Republican papers of Nevada cause for offence. The latest outrage upon their feelings was committed by the caucus of western senators and representatives, which selected Mr. Newlands to formulate the Chinese exclusion bill.

MINING IN THIS STATE

Culled News of Nevada's Most Important In- dustry.

The Quartette Mining Company of
Searchlight are having their mining
claims patented.

It is reported that the Colorado Fuel
& Iron Company is quietly gaining, by
purchase, a large control in the iron
deposits of California, Nevada and
Utah.

J. L. Joseph of Sonora, Cal., and C.
Jackson of San Francisco, Cal., and
associates have incorporated the Tono-
pah Con. M. Co. under Arizona laws,
capital \$500,000, to operate the Mc-
Namara ledge at Tonopah, on which
work will commence at once.

The Sheba G. & S. M. Co. has been
incorporated in Salt Lake City, Utah,
capital \$500,000; G. W. Bartch is
president and W. H. Child secretary
and treasurer. The company owns the
Silver Coin, Consolation, Gold Ring,
Silver Peak, Roosevelt, East Sheba and
West Sheba claims and other properties
in the Star mining district.

The Quartette M. Co. are doing de-
velopment work on the mines pending
the completion of the railroad con-
struction. On the 500 level of one of
the claims it is claimed that the ledge
is 40 feet wide, averaging \$70 free
milling ore. The company have added
to their mill fifteen stamps, making
thirty-five in all, and are erecting ad-
ditional cyanide tanks.

The new mill for the mines of the
King Solomon M. Co. at Charleston
is under construction. About 3000 feet
of development work has been done on
the mines, showing. It is claimed, ore
averaging 20 feet between the walls,
and assaying an average of \$10 gold
and from twenty to forty ounces silver.
The mill will be of fifty tons capacity,
arranged to be increased to 200 tons.
A sawmill is being erected on the ground.

Gold Mountain is one of the strongest
mineralized sections of Nevada.
Rich float is to be found from its apex
to its base. The ledges are strongly
defined. The contacts appear to be
porphyry and quartzite, and porphyry
and diorite and a tale casing between
foot wall and ore bodies. Like scores
of other mining sections in Nevada,
Gold Mountain simply awaits the in-
vestment of capital to become an ore
producing camp second only to Tono-
pah.

FOOD CHANGED TO POISON.

Putrefying food in the intestines pro-
duces effects like those of arsenic, but
Dr. King's New Life Pills expel the
poisons from clogged bowels, gently,
easily but surely, curing Constipation,
Biliousness, Sick Headache, Fevers, all
Liver, Kidney and Bowel troubles.
Only 25c at S. J. Hodgkinson's.

SAW DEATH NEAR.

"It often made my heart ache," writes
L. C. Overstreet, of Elgin, Tenn., "to
hear my wife cough until it seemed her
weak and sore lungs would collapse.
Good doctors said she was so far gone
with Consumption that no medicine or
earthly help could save her, but a
friend recommended Dr. King's New
Discovery and persistent use of this
excellent medicine saved her life." It's
absolutely guaranteed for Coughs,
Colds, Bronchitis, Asthma, and all
Throat and Lung diseases. 50c and
\$1.00 at S. J. Hodgkinson's. Trial
bottles free.

A WOMAN'S AWFUL PERIL.

"There is only one chance to save
your life and that is through an op-
eration," were the startling words heard
by Mrs. I. B. Hunt of Lime Ridge,
Wis., from her doctor after he had
vainly tried to cure her of a frightful
case of stomach trouble and yellow
jaundice. Gall stones had formed and
she constantly grew worse. Then she
began to use Electric Bitters which
wholly cured her. It's a wonderful
Stomach, Liver and Kidney remedy.
Cures Dyspepsia, Loss of Appetite.
Try it. Only 50 cts. Guaranteed.
For sale by S. J. Hodgkinson.

NOW IS THE TIME

To get in on the ground floor. A limited
number of shares in the capital
stock of the Hesperian Crude Oil Com-
pany will be sold in Reno for one-
fourth of par value.

The first well is being sunk and the
chances are almost conclusive of get-
ting oil. This is the first oil well in
Nevada. The general manager of the
Company, A. Lowe, will call upon you
in a few days.

The new oil field is located in Elko
county, where are found immense beds
of shale carrying more or less paraffine
oil.

The fossil lime, which is there in
large bodies, contains the same fossils
of marine life and has the same smell
of gas as has the lime that is found
in the Pennsylvania oil fields.

SEEDS! SEEDS!

In order to facilitate the delivery
of seeds, Mr. Newlands requests all
those desiring a quota of seeds next
spring, to send in their applications
at the present time, thus assuring an
earlier delivery than would otherwise
be possible. Address all applications
to Francis G. Newlands, House of Rep-
resentatives, Washington, D. C.

ALL AROUND THE STATE

A Few Gleaned Para- graphs of Nevada News.

Tonopah has a dramatic club.
G. Hoffman, a well-known resident
of Lander county, died last Sunday at
his home near Battle Mountain.

J. S. Hallock, ex-Controller of Ne-
vada, and who has been auditor at the
Palace Hotel for the past fourteen
years, is seriously ill.

The papers once more tell us that
another transcontinental railroad will
soon hit Nevada, and then we presume
it will connect with a line of ocean
steamers at Keeler.—Hawthorne Bul-
letin.

At Elko yesterday a man named
Isaac Durbin, while suffering from the
effects of an overdose of cocaine, laid
down on the railroad track in front of
an engine. A couple of men saw the
act and they picked him up and carried
him out of danger. He was afterwards
jailed.

A Silver State Snake Story.

Everybody knows that Nevada has
wonderful mineral resources and that
some great discoveries have been made.
First the great Comstock lode, lastly
the Tonopah bonanzas and now comes
a story from the southern end of Hum-
boldt county which knocks them all
out. Near Jake Leick's ranch, about
sixty miles from Winnemucca, where
Messrs. Lasher and Winn are quarry-
ing sand rock for building purposes at
their quartz mill at Kennedy, the men
at work struck a crevice in the rock
that has been a great producer of rat-
tlesnakes. From the time they struck
this seam they have encountered
snakes and up to the present time have
killed no less than one hundred and
fifty of the reptiles. At one time they
struck a snake graveyard where there
were the bones and skins of thousands
of snakes.

SAYS HE WAS TORTURED.

"I suffered such pain from corns I
could hardly walk," writes H. Robinson,
Hillsborough, Ill., "but Bucklen's
Arnica Salve completely cured them."
Acts like magic on sprains, bruises,
cuts, sores, scalds, burns, boils, ulcers.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is
the order of a woman's preferences.
Jewels form a magnet of mighty power
to the average woman. Even that
greatest of all jewels, health, is often
ruined in the strenuous efforts to make
or save the money to purchase them.
If a woman will risk her health to get
a coveted gem, then let her fortify her-
self against the insidious consequences
of coughs, colds and bronchial affec-
tions by the regular use of Dr. Bos-
chee's German Syrup. It will promptly
arrest consumption in its early stages
and heal the affected lungs and bron-
chial tubes and drive the dread disease
from the system. It is not a cure-all,
but it is certain cure for coughs, colds
and all bronchial troubles. You can

dies at Hodgkinson's drug store.

Resume of a Week's Doings in Religious Circles.

This department is conducted by the various congregations of Reno and the matter appearing in it is communicated. All the churches in town have been invited to contribute. Any failure on their part is not chargeable to The Journal.

BAPTIST CHURCH—Sunday was a busy day at our church, the weather was ideal and the attendance at all services was large. There were three new members received into the fellowship of the church and Sunday School was the largest in the history of the church.

Mr. Will Rees, one of the enterprising young men interested in the new newspaper enterprise at Loyall, is an esteemed member of our church. Mr. Rees was in Reno on Sunday and attended our services, his talks in the young people's meeting were very helpful and very much appreciated. Come again Bro. Rees.

Mr. Elder, "one of our boys," is in Reno, on his Christmas vacation, visiting his parents and friends. His smiling face was much appreciated at the church Sunday. Mr. Dehart, another of "our boys" is also in Reno for his Christmas vacation.

Mrs. Ray, the main spoke in the Verdi mission wheel, has been down very Sunday since their Sunday School was closed on account of scarlet fever. She always does us lots of good when she comes.

The special service for strangers at our church Sunday evening was, we think, a success. The congregation was large, the singing was good and after the benediction a large number of strangers were introduced to many people.

Mr. Evans, who has just finished his University course at Stanford, and who supplied the pulpit of our church last summer, has returned to Reno and will receive a hearty welcome among us.

Our Christmas tree and programme will be given Tuesday night at the church. Everybody invited. Exercises at 7 o'clock.

VOLUNTEERS OF AMERICA—The last week was a busy one for the V. of A. Eight indoor meetings were held. Friday night Rev. Chase led the services, assisted by Rev. Singer of San Francisco. The Sunday School reached a membership of forty. The teachers are Mrs. Dr. Ingalls, Supt., Major Ingalls, Mr. Duckworth and Mrs. Gaynor.

Tuesday evening a public meeting will be held. All are invited to come and view the Christmas tree and the decorations of the Armory.

Principal Leavitt Takes a Bride.

Allen Leavitt, principal of the Verdi school, and Miss Ida Roberts of Carson, were married Sunday at the home of the bride. A number of Reno people were guests. The ceremony was performed by Rev. Father Gartland.

Mr. and Mrs. Leavitt have gone to California on their honeymoon. They will reside in Verdi.

Purchasing Christmas Goods.

Reno business houses were crowded yesterday with purchasers of holiday gifts. Merchants report business better than for years.

CHRISTMAS NIGHT DANCE.

There will be a dance in Ritter hall Christmas night. The best of music will be furnished and the best of people will be present. Tickets will be 31. Clocks and hats will be checked free.

The Cudahy Company has suspended operations at its mine and mill in Delphi for the time being.

IS TREATING TONOPAH ORE

Everett Smelter Reducing Rock From the Bonanza Camp.

A Nevada paper recently published a statement to the effect that the rich ores from Tonopah camp would hereafter be treated by the Everett smelter, whose rates were \$3 per ton less than those charged by the Selby smelter. The Mining and Engineering Review, in commenting on the article, showed wherein the miners were benefiting themselves by taking advantage of the lower rate and effecting thereby a saving of \$3,000 on every 1,000 tons of ore treated.

Since the publication of these facts many interior papers have received inspirations, and industriously circulated reports that the Everett smelters had notified the Tonopah miners not to ship any more ore, leaving it to be implied that the Everett people could not treat the ores.

Upon investigation it was found that the shippers had been notified not to ship any more ore—until that which lay on the Oakland dock had been re-shipped to the smelters. It was further learned that the Everett smelter has capacity enough and is fully equipped to treat ores of every description and character, and is now treating Tonopah ore.

This Is Possibly a Wrong Accusation.

The young ladies at the telephone exchange have gaily decorated the switchboard with bright holly berries and a large bunch of evergreens and berries hangs from the chandelier.

Some folks think that there is a piece of misletoe concealed in Christmas decorations that hang over the operators' heads, but this deponent wotteth not.

Crushed by the Cars.

As the west-bound train pulled into Reno yesterday morning a stranger named Thomas Donahue attempted to board it before it stopped. His foot slipped from the step and it was badly crushed by the wheels. He was taken to the hospital.

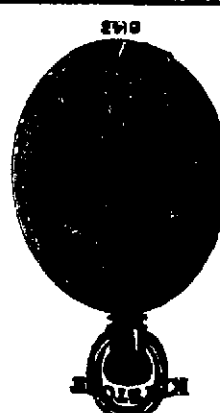

WOODMEN, ATTENTION!

The A. O. U. W. Christmas tree will be held in the Investment Hall Wednesday evening, Dec. 25. All members of the Camp and Circle and all visiting neighbors are invited to be present.
